

ANHYDROUS AMMONIA

CAS No.7664.41.7

SPECIFICATIONS :

Ammonia	% by wt. min.	99.5
Oil content	max. ppm	10
Moisture	% by wt.max.	0.5
Residue on evaporation	% by vol. max	0.05
Pyridine	Nil	
Naphthalene	Nil	
Phosphine	Passess the test	
S.Compds.	Passess the test	
Phenolic Compds.	Passess the test	

Anhydrous Ammonia Conforms to IS : 662-1980
(1st Revision)

PACKING :

Rail wagons and road tankers.

USES :

1. Production of Nitric Acid, Urea, Hydrazine Hydrate/Acrylonitrile and Methylamines.
2. Nitriding of steel.
3. As a refrigerant solvent and reaction medium.
4. Yeast Nutrient.
5. Rocket fuel.
6. Reducing agent for ores.

INDUSTRIES SERVED :

Fertilizer, Refrigeration, Chemicals, Drugs and Pharmaceuticals.
